

- 1. Come up with a team name for your group.**

CtrlAltElite

- 2. Please list the names and PIDs of the team members who are present today (or knowingly absent)**

Ian Yoon – iany25

Ethan Surber – esurber05

Yasser algburi - yasseralgaburi

Menase Yirdaw - menasey

- 3. Conduct a stand-up meeting as discussed in class on 8/30. Summarize the details for each student here.**

Ian – I worked on the HW0 that was due today.

Met my project group today.

Didn't have trouble with anything.

Ethan – Worked on HW0 as well

Met project group

Didn't have any trouble

Yasser – Worked HW0 as well

Met project group

Did not have any trouble

- 4. Based on the project details provided in class and on the course GitHub repository, what questions do you have about the project this semester?**

Our group didn't have any questions, the readme document in the GitHub repository answered all the questions that we did have.

- 5. Provide your preliminary project idea (or set of ideas). This is not a commitment to a project.**

Todo App, Standup Bot, Reward Bot
